Election Commission of India (ECI) has highlighted that the election expenditure monitoring mechanism, with its two thrust areas of keeping track of the legal expenditure incurred by the candidates and the political parties, requires coordination among the various expenditure monitoring teams and the various law enforcement agencies. ECI has also expressed concern that smuggled goods/contrabands and other illicit articles may be used to lure the voters during the election process, which would need to be checked by the law enforcement agencies including those of the Central Board of Indirect Taxes and Customs (CBIC). Another aspect that would require focused attention is the use of non-monetary inducements and cash to lure voters, which too would need to be checked by keeping strict vigil on warehouses etc. to prevent the stocking of such goods for distribution.
