Or by [email](#) with subject line “Feedback on Draft Reserve Bank of India (Rupee Interest Rate Derivatives) Directions, 2025”.

Background and Objective

The extant regulatory framework for Rupee Interest Rate Derivatives (IRD) was issued in June 2019. Since then, there have been several new developments in the market including, *inter alia*, the emergence of new products as well as the participation of the non-residents in the market. Accordingly, a comprehensive review of the IRD Directions was undertaken, and the draft Directions have been prepared to align it with the market and other related developments. The reporting requirements under the Directions have also been rationalised to reduce compliance burden. Separately, a requirement for reporting of IRD transactions undertaken globally is proposed to be introduced with a view to enhancing transparency in the Rupee IRD market.
